

SUMMARY

- Good in development of web applications using **ASP.NET MVC Core, Web API, C#.NET, Entity Framework Core, Angular, Microsoft SQL Server.**
- Good in basic understanding of developing applications using C#, .NET core, C.
- Good in problem solving and analytical reasoning.
- Quick Learner.
- Excellent communication, interpersonal and managerial skills.
- Proficient at learning and decision making.
- Challenging position in which my applied background in computer skills can be well utilized.

CAREER OBJECTIVE

Seeking a position in an organization where I can display my technical abilities and knowledge to contribute for the growth of the organization simultaneously helping me to fulfill my carrier objectives and widen my knowledge in this rapid changing field.

QUALIFICATION

Qualification	Name of the Institute	Board/University	Percentage/CGPA	Year of Passing
BE(CS)	Srinivas Institute of Technology, Mangalore	VTU Board	6.44	2023
PUC (PCMC)	Durga Higer Secondary School,Kasargod	KBPE	79%	2019
SSLC	Durga Higer Secondary School,Kasargod	KBPE	95.5%	2017

SKILLS

Front End: Angular, C, C#, Html, CSS, JAVASCRIPT.

Back End: Asp.net, Web API, C#.Net, Entity Framework

Database: Microsoft SQL Server.

Version Control Software: Git

Operating System: Windows (7, 8, 10).

PROJECTS

1. Order Management System

Order management system includes two modules, which includes Wholesaler module and Salesman module. The wholesaler module act as admin and Salesman acts as user in this project. The wholesaler module has the ability to view order lists, edit order, process order, print order and cancel order. Salesman modules have the ability to add new shop, enter the selected shop, view/edit shop details, create order with items, update to cart, view/edit cart and place order.

Software Technologies: ASP.NET MVC Core, Angular, Entity Framework MS SQL Server

Tools: VS 2022, SQL 2019, Angular, Git

As an **Intern** my responsibilities included:

- ✓ Understood the repository pattern used for Data Access and followed the same approach to write my own repositories for the Project module.
- ✓ Created methods for Inserting, Updating, and Selecting records from underlying SQL Server database via Entity Framework.
- ✓ Created Migration Scripts (OR Scaffolding) to create/update database schema for the Company module.
- ✓ Created self-contained, reusable components in Angular.
- ✓ Implemented Angular Router to enable navigation from one view to the next as customer performs application tasks.
- ✓ Used Web API to send request to the server to retrieve, storing information.
- ✓ Implemented form validation for Project Add, Edit Page.
